

Wave

The Finbin® Wave series is a stylish recycling bin collection which fits for many surrounding: shopping malls, airports and terminals, fair grounds etc. Wave series has been designed for the collection of different waste fractions in public premises. The bins can be equipped with opening plates and customised labels to guide the recycling.

Wave series includes open top bins or the bins can be equipped with arched covers. The bins are available in materials suitable for outdoor and indoor use. Standard colours are stainless steel body with metallic black top or body and top powder.

The main lid is hinged which allows easy access for maintenance. Bins are equipped with pivoted bag frames.
